React Starter Code

```
import { useState } from 'react'

export default function BillingSoftwareDemo() {
  const [activeTab, setActiveTab] = useState('dashboard')

  return (
    <div className="min-h-screen bg-gray-100 flex">
      <aside className="w-72 bg-black text-white p-6">
        <h1>MetaBlock ERP</h1>
      </aside>

      <main className="flex-1 p-8">
        <h2>GST Billing Software</h2>

        <button>
          Create Invoice
        </button>

        <div>
          <h3>Inventory</h3>
          <table>
            <tr>
              <td>Optical Lens</td>
              <td>LEN-1001</td>
              <td>■1200</td>
            </tr>
          </table>
        </div>
      </main>
    </div>
  )
}
```
